Rear suspension: Swingarm-type, oil-damped
Front brakes: Dual hydraulic disc
Rear brakes: Single mechanical drum
Front tyres: AT 25 x 8-12
Rear tyres: AT 25 x 10-12

More Information

The new KingQuad 400 auto, like its predecessor, is built for simplicity and is now even easier to use with fuel injection providing smooth power delivery and a digital display giving clear readings at a glance. The 400 retains our advanced engine braking system, which gives greater control and reduces brake wear and the handy 'in gear' starting capability is included as standard..
