SHETLAND DIVISION - New Agricultural Sales

T Series Tractors

The T Series offers a variety of hydraulic and transmission options with its Classic, HiTech, Versu and Direct model variants.

Based on the latest technology, T Series tractors are excellently suited to farmers as well as contractors or forestry specialists. Each model can be customised for a wide range of different requirement profiles.

The Valtra T Series combines traditional high performance with incomparable flexibility and comfort.

Direct

Nominal output / Maximum output (ISO 14936)

Direct

T132	135/152*
T152	150/163*
T162	159/172*
T172	170/184*
T182	180/200**
T202	190/211**

* Transport boost in work area D over 17 km/h

** Transport boost and SigmaPower

- Stepless transmission designed and manufactured in-house by Valtra
- 4 work areas - the ideal work area for each task
- 3 driving modes designed for the needs of different customers
- 2 driving speeds and 2 engine speeds can be stored in the memory
- Unique ground speed PTO available as an option

Versu

Nominal output / Maximum output (ISO 14936)

Versu

T132	135/152*
T152	150/163*
T162e ECO	160/174*
POWER	159/172*
T172	170/184*
T182	180/200**
T202	190/211**

* Transport boost in speed ranges C and D

** Transport boost and SigmaPower

- Semi-powershift transmission designed and manufactured in-house by Valtra
- 4 speed ranges, 5 powershift speeds
- Speed change with 5 powershift speeds: 128%
- Creeper gear standard
- Versatile automation, up to 10 gears automatically
- New smooth Autotraction control
- Ground speed PTO available as an option

HiTech

Nominal output / Maximum output (ISO 14936)

HiTech

T121	133/139
T131	148/162*
T151e ECO	159/173*
POWER	159/173*
T161	170/180*
T171	180/193*
T191	185/211*

* Transport boost in speed ranges H2, H3 and H4 (50km/h versions also H1)

** Transport boost and SigmaPower

- Electronic transmission control
- Mechanical hydraulics control
- 36F+36R gears
- electrohydraulic forward-reverse shuttle
- Auto 1 and 2, automatic Powershift transmission
- mechanical hydraulics control
- hydraulic output 73 litres per minute
